Introduction:

The Online Fashion Shopping System is a website that allows the users to shop online without going to the shops to buy them. This will help in saving the energy, fuel, time needed to do the shopping by going to the shops.

System description:

It's an online Fashion shop store, that you can buy what you want online by us.

After the pandemic, it became difficult to shop in the stores on your own. So, here we provide you with a lot of products that you will may need and it will arrive to your home safely.

Easily You can choose the products you want and add them in your cart, and then it will be delivered to your home.

Our online shop consists of several sections :
